Chapter 16. Payment Rates

Chapter 16. Payment Policies

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

I. CHAPTER OVERVIEW

Payments for the Subsidized Child Care Assistance Program are issued to the Child Care Facility bank accounts by direct deposit. All providers are required to set up direct deposit with FIS Merchant Services. This will require the use of a computer with internet access and a printer.

- Providers should go to the FIS [website](#) to download and print the direct deposit Provider Agreement. To receive a copy of the Provider Agreement by mail call 800-894-0050.
- Providers must read the Provider Agreement, complete all required fields, and electronically sign. Providers should keep a copy of the signed Provider Agreement for their facility records.
- Send the completed form to FIS by fax at 414-341-7058 (secure line) or by mail at:

FIS Merchant Services
Attn: Merchant Services
P.O. Box 290
Milwaukee, WI 53201-0290

Once complete, the facility will be able to receive direct deposit payments as a reimbursement from the SCCA Program. Payment for subsidized child care services is determined by the plan of care for the child, the providers star rating, as well as based on the child's enrollment and attendance. This chapter discusses the policies for payment. Information regarding allowable payment rates can be found in [Chapter 17: Payment Rates](#).

II. BASIC PAYMENT POLICIES

Payment for subsidized childcare assistance is typically based on enrollment but in some instances may be based on attendance. The provider of the facility must submit monthly attendance rosters in NC FAST before payment can be made.

The Approval Notice displayed in NC FAST for each facility indicates the maximum full and part-time rates based on market rates. The provider of the facility will enter the facility rates up to the market rate in NC FAST.

III. PAYMENT POLICIES AND PROCEDURES

Subsidy policy allows providers to choose fifteen (15) days a calendar year for automatic approval for holidays and vacation days. This limit does not include closing for inclement weather and emergencies. The limit for inclement weather and emergencies will be up to five (5) calendar days per month, which may or may not coincide with local emergency school closings. The Local Purchasing Agency (LPA) will have to approve inclement weather and emergency closings.

Providers will enroll annually through the NC FAST Provider Portal. Providers will not have to list their closure days in advance. However, they will indicate the type of closing on their attendance rosters. NC FAST will pay for the first 15 days. Subsidy policy requires that payment for facility closures is only authorized for days that privately paying parents are required to pay.

A. Payment Based on Enrollment

1. The payment is made based strictly on enrollment when the child is enrolled according to the family's plan of care and is attending regularly.
2. When the child is enrolled in the same childcare arrangement and care averages one (1) through 17 hours a week, the appropriate monthly 50% rate for half-time care is paid to the facility.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

3. When the child is enrolled in the same childcare arrangement and care averages 18 through 31 hours per week, the appropriate monthly 75% rate for three-fourths of care is paid to the facility.
4. When the child is enrolled in the same childcare arrangement and care averages 32 through 55 hours per week, the appropriate monthly 100% rate for full-time care is paid to the facility.
5. When the child is enrolled in the same childcare arrangement and the need for care is above 55 hours/week and the child attends the same provider for all hours of care, the child would have one plan of care at 150%, 175% or 200 % instead of two plans of care. NC FAST will automatically create one plan of care and one voucher in these situations.
 - i. If a child has a need for care above 55 hours/week and the child does not attend the same provider for all hours of care, a plan of care and voucher will be needed for each facility/provider.

B. Payment Based on Attendance

Payment will be made for childcare services based on attendance (the daily rate) when:

1. The child has been absent more than ten (10) days;
2. The facility charges only on the basis of attendance;
3. The facility has an unpaid closure;
4. Payment is based on attendance on the voucher;
5. The child enrolls after the first of the month or the service is terminated at any time during the month.

In these situations, NC FAST will automatically calculate the payment amount when the number of service days are entered on the child's attendance roster in NC FAST system.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

NOTE: Calculating the Daily Rate. The monthly average for service days is 21.67 days. This average number of days is used to calculate the daily rate. The daily rate for facility rates is calculated based on the following formula:

Daily Rate = Approved Monthly Rate / 21.67. Then rounded to the nearest cent. For example, (Approved monthly rate)
 $\$1500/21.67 = 69.22011 \sim 69.22$

If the child attended 5 days, the payment amount, including the 10 paid days of absence, would be $69.22*15 = 1038.30 \sim \1038 is what the provider would be paid for that month.

C. Subsidy Payment Rates Based on License Status

The payment rate for licensed centers and homes is usually determined by comparing the private paying rates to the market rate for the facility's star rated license level. However, there are times when a facility may be operating with a different type of license which may impact payments.

1. If the facility is a **new program**, a temporary license is issued. The subsidy payment is the three-star market rate, or the rate charged to private paying parents, whichever is lower. Department of Defense and Out-of- State facilities subsidy payment rate is the rate charged to private paying parents or the one-star market rate, whichever is lower.
2. If the facility has a **change of location**, a temporary license is issued. The subsidy payment can continue at the same rate as the previous license.
3. If the facility receives a **provisional, probationary, or special provisional license**, the subsidy payment rate can continue at the same rate as the previous license.
4. If the program is already established and the facility has a **change of ownership**, a temporary license is issued. The new owner can receive the private paying

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

rate up to the market rate for the star rated license that was issued to the previous owner. The Regulatory Services Section Licensing Consultant will inform the owner and/or provider of the facility during the first month that they have until the end of six (6) months to earn a star rated license.

D. Submitting Attendance Through the NC FAST Provider Portal:

Monthly attendance rosters must be submitted by 9:00 p.m. on the 5th calendar day of the following month after childcare services were provided. **Providers must submit attendance for every child before payment can be made.** Only complete rosters can be submitted. If rosters are submitted after the 5th day of the month, they are considered late, and the facility will not receive their subsidy payment until the following month.

When providers are unable to access the NC FAST Provider Portal, a DSS/LPA Provider Manager, DCDEE Provider Manager, or Child Care/Eligibility Supervisor can enter attendance and submit rosters for the provider. Those rosters must be in Open status.

There will only be three (3) months of rosters available at any time in the NC FAST Provider Portal. The three (3) months of available rosters consist of the current month and two previous months. No payments will be made for any attendance rosters prior to the two previous months. Attendance rosters older than two (2) previous months will cycle out of NC FAST on the last day of the month.

E. Roles and Responsibilities of FIS Merchant Services

1. To process information regarding expenditures in NC FAST monthly for the services to be reimbursed.
2. To make accurate and timely direct deposit payments.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

3. To give the provider of the facility the ability to review and print transaction information after payment has been made. However, if the total amount of the reimbursement to the facility is different from the amount in FIS the provider of the facility should call FIS Merchant Services at 800-894-0050.

NOTE: After payment is made to the facility, there will be a Payment Summary in the Provider Portal. The NC FAST payment summary explains to the provider the payment amount for each child. It allows the provider to review the information. If there are any discrepancies or concerns the provider must contact the NC FAST Help Desk at 919-813-5460 within 90 calendar days of receipt of the transaction history statement in NC FAST.

F. Responding to Absences

It is the responsibility of the provider/director of the facility to record and submit absences in NC FAST. Facility providers/directors are required to report absences and submit attendance rosters in the NC FAST Provider Portal by 9 p.m. on the 5th day of the month after services are rendered to receive payment.

1. Ten or More Days of Absences

A child is allowed 10 days of absences paid per month. In certain cases, NC FAST may pay for more than ten absences in a service month. Here is an example.

2. Hardship Cases or Unusual Circumstances

In certain cases, NC FAST may pay for more than ten absences in a service month. Childcare social workers are encouraged to make decisions on hardship cases with respect to the needs of the family. Hardship cases occur when a child is expected to be absent from care for more than ten (10) days in a month due to an identified situation. Parents are required to contact their child care worker to discuss their situation and provide information so that the worker can determine

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

if the situation results in an approved hardship. Prior to the 10th day of absence, the worker completes the approval process. The childcare worker may determine that payment for care is in the best interest of this particular child. Some examples of hardship cases are:

- i. Illness
- ii. Temporary disruption of transportation services; or
- iii. Unstable family situations involving child custody problems or child protective services issues. A situation in which a child is out temporarily to visit his/her divorced parent may be considered an unusual circumstance.

The number of paid absences **may not exceed 30 consecutive service days without prior approval** from the Division of Child Development and Early Education (DCDEE).

Approved Hardship Absence: Allows the provider to be paid for services when the child is absent for more than 10 days.

3. Procedures in NC FAST

- i. Select exemption as attendance status only if a child has exemption evidence of the type approved hardship absence. Providers are paid for a month if the county has updated the correct exemption evidence.
- ii. When hardship absence is approved, enter exemption evidence and select approved hardship absence as the exemption type. In this case, a provider receives payment for a full month.

The worker must provide the child's name, the date of absence, and a rationale for the absences. A statement of approval/disapproval will be sent from the Subsidy

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

Services Consultant to the provider. The statement of DCDEE approval must be retained in the record.

NOTE: [Refer to SCCA Job Aid – Exemption Evidence](#). A family vacation should not be considered a hardship nor an unusual circumstance.

4. Habitual Absences

Whenever a child is habitually absent, the child worker would need to determine whether a change in the need has occurred and whether the change is a temporary or non-temporary change.

If there is a non-temporary change in the recipient's status pertaining to working or attending a job training or education program, that contributes to a child being habitually absent. In that case, the recipient must report this to the LPA within ten (10) business days from the date the change occurs. The provider must notify the LPA after ten (10) absences. The child care worker must react to the change within ten (10) business days. Payment for childcare services will be based on attendance when the child has been absent more than ten (10) days in a month.

5. Use of Absent and Not Enrolled

When a child is enrolled but has one or more absences in a month, follow these guidelines for use of Absent and Not Enrolled:

- i. When a child is absent up to and including 10 paid absent days, select present and absent according to the attendance. Payment is based on enrollment.
- ii. When a child is absent for more than 10 days in a month, select present and absent according to the attendance. Payment is made for 10 days of

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

absence and the attendance payment is prorated based on the number of days the child attended.

- iii. When a child does not attend any day during a month on the first month of occurrence, select absent for every day of the month. Payment is based on 10 days of absence.
- iv. When a child does not return in the month after one full month of absence, use Not Enrolled for all days of that month and following months. No payment is made for the 2nd and following months when the child does not attend any days.

Remember that providers must contact the parent and DSS/LPA to report the absences whenever there are more than 10 absences in any month.

6. When the Need for Child Care Changes

When the need for childcare assistance changes from one need category to another, the childcare worker must re-evaluate the family's income and hours.

For example, a change may occur such as, a child who receives childcare to support the parent's employment now, receives care to support education.

The worker must update the income, need for care and evaluate the new hours for the plan of care. Reminder the new hours on the plan of care cannot be decreased until the end of the certification period unless requested by the family.

The payment amount must be adjusted in NC FAST, when the parental fee is discontinued. In this instance the parental fee should end dated in the same month that the need for care changed by sending all parties the Child Care Action Notice ([DCD-0450](#)).

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

G. When Services Terminate

When services terminate for one of the following reasons, NC FAST will send the facility a minimum of ten (10) working days' notice of termination of services. A ten (10) workday notice is given when one of the following situations exists:

1. The parent/responsible adult provides written or verbal notification that the service is no longer needed or wanted.
2. The child has been admitted to an institution and is no longer able to use the service.
3. The provider terminates care.

If the provider terminates care, refuses to serve the child, or indicates that it is not necessary to pay for a notice, payment will be made only for those days the child attends.

[Chapter 11: Responding to Eligibility Changes and Redetermination](#) provides additional information regarding the termination of services and or [Admin letter #05-16](#).

H. When Part-time Child Care is Not Available

Full-time care to support a part-time childcare need is allowed whenever part-time care is not available or when accessing part-time care creates a burden or hardship on the family to access part-time care. The childcare worker must document the burden/hardship while noting the burden/hardship of part-time care. Full-time care may be provided if the need is for part-time care and part-time care is not available.

I. Payment for Provider Closure Days

Subsidy policy allows providers to choose fifteen (15) days a calendar year for automatic approval for holidays and vacation days. This limit does not include closing for inclement weather and emergencies. The limit for inclement weather and emergencies will be up to five (5) calendar days per month, which may or may not coincide with local emergency school closings.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

Providers will enter the 15 days annually through the NC FAST Provider Portal. Providers do not have to list their closure days in advance but must enter them before they can enter Provider Closure days on the roster. NC FAST will pay for the first 15 days. Subsidy policy requires that payment for facility closures is only authorized for days that privately paying parents are required to pay.

If there are questions about facility closures due to extenuating circumstances, contact DCDEE.

J. Alternate Child Care Facility

When the primary childcare provider is not able to provide care for less than 30 calendar days, the recipient can choose to have care provided by a provider at an alternate facility. The facility chosen as the alternate facility must be approved to receive subsidy payments and enrolled in the NC FAST Provider Portal. Alternate facilities can only provide services for up to 30 calendar days.

Alternate facilities are chosen when the primary facility is closed, and the recipient needs care during the time the primary facility will be closed. After the recipient has selected an alternate facility, payment for the primary facility will be suspended in NC FAST via an action notice for the time the alternate facility covers the suspension of the primary facility. The alternate facility must be attached to the primary facility's plan of care in NC FAST. During the time that the primary facility is closed, the primary facility would select "Not Enrolled/Scheduled" in the NC FAST Provider Portal. The alternate facility will record attendance for the time that they provide childcare for the child. Alternate facilities will only be paid by attendance.

Start dates for care and end dates for care will be printed on the Action Notice that is sent to the primary facility indicating the time that care will be needed. At the end of the closure of the primary facility, the childcare worker will ensure that the primary facility is available, the voucher for the alternate

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

facility can be extended if less than 30 calendar days. If the primary facility's time of closure exceeds 30 calendar days, the 10-day notice policy would apply. The notice will be sent on the last day and the recipient must select a new facility. The recipient may or may not choose the alternate facility as their new primary facility. Once the recipient has selected a new facility, a new voucher will be issued in NC FAST.

K. Joint Custody

When an applicant/recipient share custody of a child and both applicants/recipients need childcare assistance, each applicant/recipient applies separately for SCCA in the county where the recipient resides and pays the corresponding parental fee. Each applicant/recipient has their own child care case and plan of care based on their need for SCCA. There are two separate applications and parental fees even if the child is with the same childcare provider. The joint custody application is largely similar to a traditional application with the exception of changes to the plan of care evidence.

Changes in the plan of care evidence for joint custody are in the care schedule and level of care. When both parents use the same provider, it may be necessary to adjust the level of care to adjust payments. To prevent payment issues, the case worker needs to indicate the level of care that each recipient will need for childcare.

For preschool age children in preschool, the service offered is 0-5 in NC FAST and a 50% rate can be paid for each parent/responsible adult. When the child is in joint custody and the child attends the same provider, school-age children with school age service offering will be paid at the 75% rate for each parent/responsible adult. The provider will receive a payment of 150% due to having active joint custody cases. If recipients work different shifts, they can receive the full 100% of care at the same facility.

Additional information regarding joint custody is provided in [Chapter 7: Family Definition and Determining Income Eligibility](#) and or the [SCCA Joint Custody Job Aid](#).

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

L. Children Turning 13 Years of Age

SCCA policy requires that services continue for children who turn 13-years old, through the end of their certification period. They should not be terminated during the month that they turn 13-years old. If the child's 13th birthday falls on the first day of a new certification period, services should end on the last day of the previous month. This should not include children who are over 12 years of age who have a special need, who are under court ordered supervision, who are receiving child protective services or foster care services. Or children who would be left in an unsafe situation if care were not provided.

NC FAST will automatically terminate care on the last day of the certification period after a child turns 13 years of age. No action is required in NC FAST to make this extension occur. Childcare workers need to ensure that the child's parent/responsible adult understands that services will terminate at the end of the certification period and not during the birth month.

If a family receives graduated phase out at the end of their certification period and a child turns 13 during the graduated phase out, subsidized childcare assistance for the 13-year-old child should continue until the end of the graduated phase out. If the family becomes income eligible during the graduated phase out, the 13-year-old cannot be recertified past the end date of the graduated phase out.

M. Blended Rates

A blended rate is 83% of the facility's full-time approved subsidy rate and is used for children who need before school, after school, or before and after school care, full-time care during school closure days (teacher workdays, holidays, or inclement weather) and full-time care during the summer/track-out. The rate includes up to a maximum of fifteen (15) holidays, ten (10) teacher workdays, and fifteen (15) inclement weather days) when school is closed, and childcare is provided.

Calculating the Blended Rate:

Facility's Approved Rate * 83% = Blended Rate. For example:
 $\$1500 * .83 = \1245

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

1. When Facilities Qualify for Blended Rate

- i. Facility provides care during at least one of the following schools closures days: Inclement Weather days, Teacher Workdays, or Holidays.
- ii. Facility provides full-time care during the Summer/Track-out.
- iii. Facility provides the appropriate services.
 - For pre-school age children who attend a school-day program such as Head Start, NC Pre-K, or public-school service such as Title 1 or a special education classroom: provides 3-year-old, 4-year-old, or 5-year-old services.
 - For school age children: provides Before, After, or Before and After School services.

A single provider needs to provide care for each of the three categories for Blended Rates to apply. An exception does apply; a second provider can offer care on certain school closure days. One example is when one provider cares for a child before school, during the summer, and on teacher workdays, while another provider offers care during inclement weather days.

2. Children Who Qualify for A Blended Rate

- i. Child attends the facility year-round.
- ii. Child attends the facility for either Before, After, or Before and After School care during the school year.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

- iii. Child attends the facility on school closure days (Inclement Weather days, Teacher Workdays, or Holidays)
- iv. Child attends full-time during Summer/Track-out.

Children who qualify for a Blended Rate can ONLY attend a facility that is eligible to be paid a blended rate. The user will not be able to select a facility for a child who qualifies for a Blended Rate if the facility does not meet qualifications for a blended rate.

3. Facilities That Cannot Provide Care for Children Who Qualify for Blended Rate:

- i. Does not provide care during any school closure days (Inclement Weather days, Teacher Workdays, or Holidays)
- ii. Does not provide full-time care during the Summer/Track-out.
- iii. Does not provide the appropriate services.
- iv. For pre-school age children: does not provide 3-year-old, 4-year-old, or 5-year-old services.
- v. For school-age children: does not provide Before, After, or Before and After School services.

4. Children Who **DO NOT** Qualify for A Blended Rate

- i. 0-2-year-old
- ii. Do not attend the same facility throughout the year.
- iii. Do not need care before and/or after school.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

- iv. Do not need care on any school closure days (Inclement Weather days, Teacher Workdays, or Holidays)
- v. Do not need full-time care during Summer/Track-out.
- vi. Child needs school age care (2nd or 3rd shift)

5. Program Operating Only in The Summer

For facilities operating only in the summer receive payment based on the level of care approved for the child and will not receive a blended rate payment.

6. Blended Rate and Certified Developmental Day Centers

Certified Developmental Day Centers operating 12 months a year are subject to the blended rate policies. Certified Developmental Day Centers operating only during the school year receive payment based upon the child's level of care. Blended rates will not be used for children ages zero to two (0-2). Certified Developmental Day Centers offering before and after, just before, or just after school care, plus summer/track-out, and at least one additional care feature (teacher workdays, holidays, inclement weather days) with a care plan of 100% will be paid at 83% of the facility's cost study rate for children who qualify for a blended rate.

7. Payment: Facilities That Qualify for Blended Rate

- i. Non-CDDC Facility
- ii. Pre-School Age Blended Rate

Approved Rate: 83% of the facility approved rate for the appropriate service depending on the child's age (3-5-year-old). When preschool age children need full time summer/track-out care in addition to before, after, or before and after school care during the school

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

year, a blended rate of 83% of the facility approved subsidy rate for the specific age group will be paid for the entire year.

8. Blended Rate for School Age Children

- i. A blended rate is the rate that will be used for children who need before school, after school, or before and after school care, full-time care during school closure days (teacher workdays, holidays, or inclement weather) and full-time care during the summer/track-out. The rate includes up to a maximum of fifteen (15) holidays, ten (10) teacher workdays, and fifteen (15) inclement weather days) when school is closed, and childcare is provided.
- ii. Before School, After School, and Before and After School can each have their own unique blended rate.
- iii. Market Rate: 83% of the School Age market rate for that facility according to the appropriate type of facility (home/center) and the facility star rating.
- iv. Approved Rate: The lower of the Market Rate or Private Pay Rate.

A school age child who does not qualify for a blended rate but is attending a facility that qualifies to care for a blended rate child, will be paid a 75% rate. This will take the approved (83%) rate and divide it by .83 and then multiply it by .75 (for example: if blended rate is \$83 then $(83/.83) * .75 = \$75$).

9. Pre-School and School Age Blended Rate:

- i. Approved Rate: 83% of the facility's Typically Developing or Special Needs rate if the child has a plan of care with a level of care at 100%.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

A child who does not qualify for a blended rate but is attending a facility that is eligible to care for a blended rate child, will be paid at a 75% rate. The rate will be 75% of the facility's Typically Developing or Special Needs rate if the child has a plan of care with a level of care of 75%.

10. Payment for Facilities that DO NOT qualify for Blended Rate

i. Pre-School Age Children

Approved Rate: Lower of the market rate or private pay rate for the appropriate service multiplied by the child's level of care.

N. School Age Children (Before, After, or Before and After School Services)

1. A Private Rate: there are some facilities that may offer additional care features but not full-time summer/track-out care OR vice versa. The facility has included the differential cost of care in their private pay rate and that will be compared to the appropriate market rate to determine their approved rate.
2. Market Rate: 75% of the School Age market rate for that facility according to the appropriate type of facility (home/center) and the facility's star rating.
3. Approved Rate: The lower of the Market Rate or Private Pay Rate.

O. More Than One Plan of Care

When a situation occurs in which the average number of hours that care is needed exceeds 55 hours a week, childcare can be provided through two (2) different facilities or through a single facility that offers care for extended hours.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

1. When two (2) different facilities are used, each facility is paid the rate appropriate for the established plan of care.
2. If a single facility is paid for more than one shift, the licensed childcare center or home must be approved by the Regulatory Services Section Licensing Consultant to provide care for more than one shift and the approval must be included on the facility's Approval Notice.
3. If a child has a need for care above 55 hours/week and the child attend the same provider for all hours of care, the child will have one plan of care at 150%, 175% or 200 % instead of two plans of care. NC FAST will automatically create one plan of care and one voucher in these situations.
4. If a child has a need for care above 55 hours/week and the child does not attend the same provider for all hours of care, a plan of care and voucher will be needed for each provider. [Refer to Chapter 5, Establishing a Need, Level, and Plan of Care.](#)

P. Payment for Religious-Sponsored Programs (G.S. 110-106)

Any religious-sponsored child care program (G.S. 110-106) receiving a Notice of Compliance from DCDEE is approved for participation in the Subsidized Child Care Assistance (SCCA) Program and eligible for subsidy vouchers.

These programs are not required to obtain a license, but they must meet all of the licensing requirements except those that relate to staff qualifications, staff training, and activity plans and schedules. Religious sponsored programs without a star rated license will be paid their private-paying rate or the one-star market rate, whichever is the lowest.

Q. When the Child Receives Care in His/her Home

A family may choose in-home care for their child(ren) if that is the best option. In order for child/ren to receive subsidy

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

services in their own home, the child(ren)'s home must be licensed as a Family Child Care Home.

When an eligible family chooses in-home care, the family must complete the licensing process necessary to become a Family Child Care Home provider. The process includes the parent(s) who will be the owner(s) of the home and the person who will be providing the child care. The individual(s) providing the child care cannot be the child's parent(s)

Additionally, in order to authorize payment for services for a child in his/her own home, one of the following situations exists:

1. A child is in DSS custody and resides in a licensed foster home and the foster parent operates a licensed family childcare home.
2. A child is in DSS custody and is placed in the home of a relative and the relative operates a licensed family childcare home.
3. A child and recipient reside in the home with another adult household member who operates a licensed family childcare home, and the recipient is not the owner or provider of the family childcare home.
4. A child whose parent/responsible is in the Armed Forces and has selected the licensed family childcare home facility to be the child's guardian while he or she is deployed.
5. A child whose parent/responsible adult is incarcerated and has given the licensed family childcare home facility provider's custody (physical and/or legal) and/or power of attorney.

The in-home child care provider will be paid according to their star rated license at the time the child stays with the provider.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

R. Out-of-State Facilities

There may be situations in which it is necessary for a child receiving subsidy assistance to receive childcare assistance from a facility in another state. Examples might include:

1. A child in the custody of a local department of social services is placed in a foster home or relative's home in another county or state, and childcare assistance is needed; and
2. A parent commutes to an employment location that is in another county or state and requests childcare near the employment location.

Additional information regarding enrollment procedures and payment rates for out-of- state facilities is provided in [Chapter 15: Approval and Enrollment Procedures for Licensed Facilities](#).

S. County Transfer

Recipients are required to report changes to their LPA including when they move from one county to another within the state. When a family moves from one county to another within the state and continues to need subsidized childcare, the family's eligibility for SCCA and their case shall continue with no interruption in eligibility and the case shall be transferred to the new county. The family shall not be placed on a waiting list in their new county.

1. The receiving county becomes responsible for managing the case on the date the transfer is made.
2. The transferring county continues to pay for services until the first of the following month, when the receiving county becomes the funding county.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

T. Before Starting A Transfer

1. Ensure that all changes and updates reported to the current county have been completed.
2. Obtain the new address of the Case Head to ensure transfer to the correct county.
3. Update the new address in NC FAST prior to transferring the case.
4. Consult with client to determine whether the child will remain with the current provider and make any necessary changes.

Additional information regarding county transfers is provided in Chapter 4, the [SCCA County Transfer Job Aid](#) and [Admin Letter #05-18](#).

U. Making Payment for Children Over Twelve (12) Years of Age

In order for children over the age of 12 who are receiving subsidy assistance to be served in a licensed program, the facility must comply with licensing requirements for school age children. Refer to [Chapter 4: Application, Eligibility Determination and Documentation](#) for additional information regarding serving children over the age 12.

IV. USING MORE THAN ONE SOURCE OF FUNDS TO PAY CHILD CARE COSTS

The facility may receive payment for childcare assistance from two (2) or more sources of funds, for an individual child provided the total payment (including the parent fee) does not exceed the private paying rate which has been reported to the LPA. When a facility receives payment from two (2) or more sources for an individual child, the provider of the facility must notify the LPA of the child(ren) who will be receiving multiple sources of assistance and the amount to be paid by the other funding source. The provider of the facility should include information about other funding source used for a specific child on the monthly attendance sheet.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

A. Public Funds

More than one funding source may be used to pay for a child enrolled in a childcare program. That part of the program or the hours of care that are paid by other funding sources cannot also be paid with subsidized childcare assistance funds. Some examples of these public funds are:

1. Early Head Start Facilities
 - i. Federal [Head Start](#) funding is expected to pay for all required services during the hours of operation in which Head Start services are provided. Head Start programs usually operate four (4) or five (5) days a week for five (5) or six (6) hours a day. Most programs are funded for nine (9) or ten (10) months per year. However, many Head Start agencies offer childcare during the hours before and after the regular Head Start program and during the summer months when Head Start is not in operation. If a Head Start program wants to participate in the Subsidized Child Care Assistance Program, those hours of the program that are **not** funded by Head Start can be approved for a child eligible for subsidized childcare assistance.

2. Local Education Agency
 - i. When a **preschool age** child is enrolled in a certified developmental day facility or any special needs services, the local purchasing agency pays the appropriate rate which is indicated on the Approval Notice. The child's approved plan of care determines the portion of the day for which payment will be made.

 - ii. When a **school-age child** is placed by the local education agency (LEA) in a certified developmental day facility, the LEA pays the center for basic education and related services for the school portion of the day for that child. The LPA cannot use subsidy funds to pay for the hours that school operates.

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

- iii. If the child needs before and/or after-school care and the certified developmental day program offers childcare, the LPA may pay a part-time rate for that service (before and/or after-school). In order to pay for before and/or after-school care, the LPA must determine what the school hours are, what hours are for before and/or after-school care, and if private paying parents are charged for that time. Payment will be based on the part-time rate (as stated above) for before and/or after-school care. The LPA may also pay a full day rate for childcare provided to school-age children at a certified developmental day facility on public school holidays, teacher workdays, and during summer vacation, if care is needed. The payment to the provider is reduced by the parental fee.

See [Chapter 17: Payment Rates](#) for information regarding payments to certified developmental day centers.

B. Grants, Loans, and Scholarships

A parent may receive financial aid which is designated for childcare, e.g., from the state funded childcare program through the community college system or other community college funding, based on criteria established by the local community college. The amount of the financial aid will be subtracted from the payment made by NC FAST to the facility. The parent must use the financial aid to pay the facility.

Communication between the financial aid officer and the childcare worker will assure that efforts are not duplicated, and the applicant receives the maximum benefit for which she is eligible. Funds received in hand from other grants, loans, or scholarships (e.g., Pell grant) are not designated specifically for childcare and the parent cannot be required to use such funds to pay for childcare services.

When a provider offers a scholarship to help families pay for childcare, the provider's policies about the scholarship must be in writing and made available to families. Although DCDEE does not monitor provider's scholarship programs, DCDEE does expect the provider to have written policies that govern

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

their scholarship program. The provider determines the funding source for the scholarship. There is an expectation of fairness as it relates to private pay/subsidy pay, and that expectation is to be the same.

C. Employer Benefits

Childcare workers should discuss with parents/responsible adults the possibility of receiving employer benefits or discounts for childcare. An employer benefit is usually paid to an employee to assist with the cost of childcare.

V. SUSPENSION OF SUBSIDIZED CHILD CARE ASSISTANCE PAYMENTS

A. Reasons for Suspensions or Termination

Subsidized childcare payments are subject to termination for failure by the facility provider to meet licensing requirements that jeopardize the health and safety of children. NC FAST may not make subsidized childcare payments to a facility or issue new Child Care Vouchers in the following situations:

1. When the license has been revoked or denied (45 days).
2. When the facility has received a Notice to Cease Operations (applies to a religious-sponsored facility operating under G. S. 110-106).

Unless an administrative action or court order mandates otherwise, the termination of subsidy payments remains when the provider of the facility appeals any action or situation listed above.

NOTE: A facility shall be permanently disqualified from participating in the SCCA on the first incidence of fraudulent misrepresentation.

A sanction or financial error rate greater than 10% is first instance of fraud or 3rd determination of non-compliance within a 2-year period. These are permanent ineligibility.

Refer to [Chapter 12: Licensing Requirements, Non-Compliance, and Sanctions](#) for a listing of [Administrative Actions](#) available to

Subsidized Child Care Assistance Program Policy Manual
Chapter 16. Payment Rates

DCDEE and [Chapter 19: Fraudulent Misrepresentation](#) for information regarding imposing sanctions.

B. DCDEE Responsibilities

DCDEE may take any of the actions previously mentioned when violation of any section of the statutes or rules has been willful, continual, or hazardous to children. In addition, DCDEE may take any of the actions noted if the facility has not made reasonable efforts to comply, or is unable to comply, with the required standards.

In situations where there is an Order Requiring Summary Suspension of License, the facility must immediately surrender the license on the date of the Order. On this date subsidy payments will stop, and subsidy services will terminate for children who are enrolled.

When any of the other actions listed are taken, DCDEE will email a Notice of Administrative Action, which is marked “proposed action”, to the facility provider informing him or her of the intended action. A cover letter will be attached, which states: “The Department of Health and Human Services is preparing to take administrative action.” A copy of the letter and action will also be sent to the childcare coordinator of the LPA as an advance warning for the LPA that an action may occur. **The LPA will not act on this “proposed” action.** If the action is to proceed, DCDEE will then hand deliver to the facility another Notice of Administrative Action with a cover letter that states, “this action is taken.” A copy will also be emailed to the childcare coordinator of the LPA. When the LPA receives its copy, they should proceed by notifying the provider of the facility and parents that subsidy will be suspended within 45 calendar days from the date the action was delivered. During these 45 calendar days, NC FAST shall not enroll any new children receiving subsidies.

In other situations where the LPA receives authorization to discontinue Subsidized Child Care payments, this authorization is given directly to the LPA. The LPA notifies the provider of the facility concerning the determination.

NOTE: The Approval Notice will be terminated for all the actions stated above when the Rate Setting Unit receives notification.

C. Local Purchasing Agency Responsibilities

1. When the LPA receives from DCDEE **the copy of the Order Requiring Summary Suspension of License**, the LPA must take the following action immediately:
 - i. Notify the parents of the children enrolled at the facility via telephone and in writing that the subsidy payment for care at the facility will cease on that date and the reason why.
 - ii. LPA will enter the Plan of Care information into NC FAST so that a new voucher will generate.
2. When the LPA receives from DCDEE **the copy of the Notice to Cease Operation (G.S. 110-106) or the notice that the license has been revoked or denied**, the LPA must take the following action immediately:
 - i. If a parent chooses to withdraw the child(ren) before the 45 calendar day period ends send a Child Care Action Notice giving a ten (10) workday notice of termination to the facility.
 - ii. At least ten (10) workdays prior to the final date that subsidy payments can be made send an Action Notice to both the parents and the facility to terminate services for all children who remain in care at the facility.
 - iii. During the 45 days the LPA shall not enroll any new children receiving subsidies.
3. When an LPA has concerns about repeated instances of noncompliance by a childcare provider and wishes to terminate the Child Care Provider Agreement, the LPA should contact the Subsidy Services Section of the DCDEE with the information that supports the LPA's concerns. DCDEE staff in the Subsidy Services Section will review information and determine whether the Provider Agreement

should be terminated based on the information provided. When the LPA receives notice from DCDEE authorizing the discontinuance of subsidy payments to the facility, the LPA should follow the steps in [Section C.2.a-e](#) above.

- i. In other situations where the LPA receives authorization to discontinue subsidized childcare payments, this authorization is given directly to the LPA. The LPA notifies the provider of the facility concerning the determination.

D. Option for Parents

Parents, guardians, or responsible adults who choose to select another arrangement in situations where subsidy payments have been suspended must contact the LPA to obtain a new Child Care Voucher. In some cases, it will be necessary for the LPA to pay for two (2) arrangements for a ten (10) workday period, such as when a parent wishes to move his/her child immediately upon learning of the action during the time the ten (10) day notice is given to the facility.

If parents continue to choose a facility that is appealing an action described in this section, they are responsible for paying the facility after the 45-day limit.

NOTE: In cases of administrative actions other than when the facility is closed by DCDEE, the LPA must honor the provider agreement and continue to pay the facility for subsidized childcare. See information above regarding when to stop subsidy payment for revocations, denial of license, and notice to cease operation.
