
FAMILY PLANNING PROGRAM
REVISED 12/19/18 – CHANGE NO. 14-18

I. Introduction

The Medicaid Family Planning Program (FPP) establishes a system by which individuals can more easily access family planning services to reduce the number of unplanned pregnancies.

A. Eligibility Requirements

1. No age restrictions
2. Ineligible to receive in any other full or limited Medicaid program/category including medically needy and the Medicare Savings Programs (MQB).
3. Meet all financial and non-financial eligibility requirements

B. Determine Eligibility

Determine Family Planning Program eligibility if it is not anticipated that a deductible will be met or disability will not be established by application disposition date. Apply MAGI budgeting methodologies to individuals in the Family Planning Program.

C. Certification Period

The certification period is 12 months for an ongoing case. The certification period can be adjusted to match the family's other Medicaid cases.

D. Retroactive Eligibility

Retroactive eligibility can be determined for 1, 2 or 3 months prior to application. Retroactive FPP cannot be authorized prior to October 1, 2014.

E. Redetermination

Using the ex parte process, evaluate for all other Medicaid programs prior to authorizing continued Family Planning Program.

F. Change in Circumstance

Changes include, but are not limited to, changes in:

1. income,
2. household,
3. disability status or
4. ability to meet a deductible.

When a change in circumstance is reported, evaluate for all Medicaid programs. Determine eligibility within 30 days.
