

## **LEARNING NEEDS SCREENING TOOL DIRECTIONS**

1. Ask the client each question in each section (A, B, C, D) and question #14.
2. Record the client's responses, checking "Yes" or "No."
3. Count the number of "Yes" answers in each section.
4. Multiply the number of "Yes" responses in each section by the number shown in the section subtotal. For example, multiply the number of "Yes's" obtained in Section C by 3.
5. Record the number obtained for each section after the "=" sign in the section subtotal.
6. To obtain a Total, add the subtotals from Sections A, B, C, and D.

**If the Total from Sections A, B, C, and D is 12 or more, refer for further assessment.**

Interviewers must ask the additional set of medical/health-based questions to gather more complete background information.

Refer to the Learning Needs Screening Tool Question and Descriptions and Follow-up Explanations to clarify terms and meanings to obtain an accurate response from the participant.

### **BEFORE PROCEEDING TO THE QUESTIONS, READ THIS STATEMENT ALOUD TO THE CLIENT:**

The following questions are about your school and life experiences. We're trying to find out how it was for you (or your family members) when you were in school or how some of these issues might affect your life now. Your responses to these questions will help identify resources and services you might need to be successful securing employment.
